CURRENCY NOTES

Are issued from the following Circles and Sub-Circles:—Calcutta, having for its Sub-Circles Allahabad and Lahore; Madras, having for its Sub-Circle Calicut; Bombay, having for its Sub-Circle Karachi; and Rangoon, having for its Circle all the territory under the Lieutenant-Governor of Burma.

Notes of the following denominations, viz., Rs. 5, 10, 20, 50, 100, 500, 1,000, and 10,000 are issued without any limits—

For current silver coin of the Government of India, from every Office.

Notes are payable at the Office of Issue, and notes of subordinate circles are also payable at the Office of the Presidency Circle to which those circles are subordinate; and for the accommodation of the public, notes of other circles are cashed at any office to the extent that the convenience of each office will permit. In ordinary circumstances every Treasury Officer in British India cashes or exchanges notes, if he can do so without inconvenience; and when this cannot be done conveniently, small sums can generally be exchanged for travellers.

Every note is a legal tender in its own circle; that is to say, whenever a note forms the integral sum, or a portion, of any payment whatever either to Government, to Companies or to individuals, it is a legal tender. A note may be tendered in payment of a debt less than the value of the note, but the payee is not legally bound to accept it and give change.

Notes of any circle can be tendered to any department of Government in payment of dues, and travellers may pay notes of any circle to the railways.

Each currency note has a serial letter and number and a general number thus: V, 10106—serial letter "V," serial No. "16," general number 10106. No action can be taken with reference to any note until it has been thus fully described, or identified in all these details.

A currency note that has the same series and numbers on both halves, and is neither mutilated nor altered nor forged, is payable to the bearer on demand at the office of the circle from which it was issued; and, if a sub-circle note, at the office of the head circle also.

The payment of a genuine currency note cannot be "*stopped*," as all entire currency notes are payable to bearer on demand. The Currency Department, however, registers the loss of notes from Rs. 50 and upwards when correct details, viz., serial letter and number, and general number, are given, and sufficient cause shown; and informs the loser and the Local Police when the note is cashed. For further action in the matter the loser should communicate with the Police, as it is not the province of a Currency Office to trace back lost or stolen notes. No claim for the value of a lost or stolen note, except on presentation of the note itself, can be entertained.

When a currency note has by any accident been totally destroyed, full description of the note, and of the circumstances of its destruction, should be sent to the Currency Office of the circle of issue to which the note belonged. Government are under no legal liability to pay the value of such a note, but payment after twenty years is sometimes made as a concession.

A half note represents no value, nor has a person holding only one-half of a note any claim to recover value when the other half has been transferred, either by him or by the last legal holder of the entire note, to the legal possession of another person. When one-half of a note is lost, the other half should be sent to the Currency Office of the circle of issue to which the note belongs, and an application for refund of the value of the note made by the person who last held simultaneously both halves of it. Government are under no legal liability to refund value on half notes, but payment may be made as a concession, if the Commissioner or Head Commissioner of Paper Currency thinks such a course warranted by the facts of the case.

A mutilated or charred note represents no value. Payment can be made only as a concession, and the decision rests in the first instance with the Currency Officer, and then, in cases of doubt or appeal, with the Commissioner or Head Commissioner of Paper Currency.

A mismatched note represents no value, but the Currency Department is willing to hold such notes on behalf of depositors, and to pay value on them on receipt of either one or both of the corresponding halves. Further, if a mismatched note remains in deposit for three years and no payment has been made on it in the meantime, one value is paid on the expiration of the above period.

When any portion of a note has been erased, inked over, cut out, burnt through, or otherwise altered, so as to throw doubt on the identity of the note, or to make it appear as another note, payment on it may be refused altogether, and the note impounded under rule.

Goods in casks or cases to be calculated at gross weight when paying freight by weight.

At a Special General Meeting of the Chamber, held on the 4th of October 1883, the following Resolution was adopted:—

That Rule I under the Chamber's Tonnage Schedule be altered as follows in accordance with the Resolutions proposed and adopted by the Mercantile Community at their Meeting on the 3rd July 1883, and in accordance with the Notice issued by the Chamber of Commerce on the 4th July 1883, under Rule 23 of the Chamber, viz:—

1. That where freight is payable by measurement, measurement be by sworn measurers, to be placed under the direction of the Bengal Chamber of Commerce.

2. That measurement be taken at place of shipment, *i.e.*, exporting wharf, jetty, or press-house where adjacent to place of shipment, at measuring Superintendent's discretion, but only whilst the bales are actually being removed in course of shipments.

3. Such measurement be final.

4. That in cases of shut-out cargo, or cargo transferred from one vessel to another, measurements to hold good.

5. But that any cargo re-landed be re-measured.

6. That measurement be taken at the largest part of the bale, inside the lashing on the one side and outside on the other.

7. That the measurement of jute shipped without measurement shall be entirely at shipper's risk, and that measurement be a matter of special arrangement between the shippers and ship. Further, that all expenses connected with the measurement thereof be payable by the shippers.

8. That all cotton and other baled cargo arriving at the East Indian Railway Company's terminus at Howrah for shipment direct by boat be measured by the sworn measurers in the Railway Company's sheds, while being removed in actual course of shipment.

9. All baled cargo pressed at, or exported from, any of the press-houses to which a sworn measurer may be attached, be treated in the manner as jute, and as provided for in the 2nd Resolution.

10. That gunny bales packed at, or exported from, mills within the limits of the port, be also measured as described in the 2nd Resolution.

11. That gunny bales or other cargo exported by boat direct, from outside the limits of the port, be measured by the sworn measurers on the deck of the ship or alongside; but it shall be optional with outside mills and press-houses to make arrangements with the Managing Committee, on such terms as may be mutually agreed on, for the attendance of sworn measurers at their ordinary shipping wharves for measurements in accordance with Rule 2.

12. That all baled, cased, or other cargo not provided for in any of the foregoing Resolutions, and which at present is measured on this side, under any of the Tonnage Schedules now in use in the port, or which may require to be measured on this side by a special arrangement made between shippers and ship, that all such cargo be measured on the Custom House wharf (if for export by boat) or in the Jetty sheds (if for shipment through the jetties), by the sworn measurers.

13. That for the present the sworn measurers to be appointed to carry out this scheme be placed under the direction of a representative Committee, to be nominated by the Committee of the Chamber of Commerce.

14. That the charge for measurement be defrayed by the ship.

At a Special General Meeting of the Chamber, held on the 29th November 1883, it was resolved—

That for gunny bags and gunny cloth the ton shall be 50 cubic ft., not exceeding 2,240 lbs. "gross".

That the term "dead weight" shall be understood to mean the following articles "only":—

RULES AND REGULATIONS—For the Measurement by Callipers upon Exports from Bombay of Cotton, Wool, Hemp and other Pressed Bales.

I. CALLIPERS shall from time to time be submitted to the Secretary of the Chamber of Commerce, and, if found correct, shall be branded with a stamp bearing the name of the Chamber, to indicate the same.

II. If, from use or otherwise, any Calliper should get out of order, and be objected to, the party objecting shall send the Callipers to the Chamber for examination; and should the objection be valid, the Chamber's stamp shall be defaced by the Secretary. If, however, the objection is found to be groundless, the Secretary shall give a note to that effect, and the party objecting shall be bound by his decision.

III. Any Callipers found incorrect, and on which the stamp has been defaced, may be re-stamped after adjustment.

IV. No measurements shall be held good except such as are taken by Callipers bearing the Chamber's stamp.

V. Public Measurers shall be appointed under the authority of the Chamber of Commerce, and stationed at the different Bunders, to measure pressed bales of Cotton, Wool, Hemp, and other merchandise.

VI. A fee, the amount of which shall in no case exceed half an anna per bale, but which may be regulated by the Chamber from time to time in order to meet the expenses of the necessary establishment, shall be levied on all bales measured by the duly appointed Measurers.

VII. No bales shall be measured without the production of the Custom House Pass bearing the endorsement

ment of the Measurement Fee Clerk, to the effect that the fee has been paid.

VIII. The Measurers shall measure not less than five bales in every hundred, ascertaining the length of the bale and the greatest width and depth over the lashings and as near the centre of the bale as possible, but not over the knots.

IX. The Measurer shall give a Certificate of Measurement, which must accompany the bales to the ship or steamer, and shall furnish the Shipper with a copy thereof. This certificate, which shall be retained by the ship, shall state—

The date and hour of measurement.	The name of the ship or steamer.
The number of the boat.	The number of bales.
The name of the tinal.	The marks of the bales.
The name of the shipper.	The measurement.

X. The Shipper shall, if required, in writing, give the Agent of the ship or steamer notice in writing of the time when, and the name of the Bunder on which, his bales will be measured, in order that the ship or steamer may be represented.

XI. The bales shall be alongside the ship or steamer within 36 hours after measurement, weather permitting, or the certificate shall be void, and the bales shall be re-measured on board; written notice, however, in such case being given to the Shipper, so that he may have the option of attending.

XII. The salaries of the Measurers, and all other expenses connected with this scheme of measurement, shall be paid by the Chamber from the fee fund raised under these rules.

XIII. All matters pertaining to the measurement of Cotton, as defined above, including the appointment of the Measurers, the fixing of their salaries, the payment of the same, and the doing of all things necessary for a

proper and economical working of the scheme, shall be placed in charge of the General Committee of the Chamber.

XIV. No refund of Measurement Fees shall be allowed for sums under one rupee.

XV. No claims for refund shall be allowed, unless presented within one month from the date of vessel's departure.

BRITISH INDIAN MONEY, WEIGHTS AND MEASURES.

The Gold Coin is the *Mohur* = 16 Rupees, but Silver is the standard metal of India. The current coins of SILVER: 1-rupee piece, 8-anna piece, 4-anna piece, and 2-anna piece; and COPPER: 2-pice piece, 1-pice piece, $\frac{1}{2}$ -pice piece, and 1-pie piece.

The weight of the Gold Mohur and that of the current Rupee is the same, viz., 180 grains Troy. Sicca Rupees are referred to in the Money Market, but they are not issued; 100 Sicca Rupees are equal to 106-10-8 current rupees.

To convert Sicca Rupees into current, add $\frac{1}{15}$ th; and current rupees into Sicca, deduct $\frac{1}{15}$ th.

Bazar Weight.—16 chittacks are one seer, or 2 lb 0 oz. 13 drs.; and 40 seers, 1 maund, or 82 lb 2 ozs. 3 drs. 100 Bazar maunds = 110 Factory; and $1\frac{1}{4}$ Factory maunds = 1 cwt.

Factory weight.—16 chittacks are 1 seer, or 1 lb 13 ozs. 14 drs.; and 40 seers, 1 maund, or 74 lb 10 ozs. 11 drs. The Indian maund = 82 $\frac{1}{2}$ lb Avoirdupois Weight.

N.B.—The Exchange value of a rupee during 1895 stood at about 1s. 1d.

Cowries (*Cypræa moneta*), or small shells, are also made use of for fractional payments.

They are reckoned in Bengal:—

4 Cowries	...	make 1 Gunda.
20 Gundas	...	1 Pun.
5 Puns	...	1 Anna.

In the North-West Provinces:—

BRITISH INDIAN WEIGHTS.

The Unit of the British Ponderary System is called the *Tola*. It weighs 180 grains English Troy Weight. From it upwards are derived the heavy weights, viz., *Chittack*, *Seer* and *Maund*; and by its sub-division, the small or jewellers' weights called *Mashas*, *Ruttees* and *Dhars*.

1 Dhan or grain	...	=	$\frac{1}{180}$ grain Troy	=	$\frac{1}{180}$ dr. Avoir.

5 Tolas	= 1 Chittack	=	1 oz. 17 $\frac{1}{2}$ dwt. Troy	=	2 $\frac{3}{4}$ oz. "
16 Chittacks	= 1 Seer	=	2 $\frac{1}{2}$ lbs. Troy	=	2 $\frac{3}{4}$ lbs. "
40 Seers	= 1 Mun	=	100 lbs. Troy	=	82 $\frac{1}{2}$ "

TO CONVERT INDIAN WEIGHT INTO AVOIRDUPOIS.

Multiply the weight in Seers by 72, and divide by 35; the result will be the weight in lbs. Avoirdupois; or multiply the weight in maunds by 36, and divide by 49; the result will be the weight in cwt. Avoirdupois.

TO CONVERT AVOIRDUPOIS WEIGHT INTO INDIAN WEIGHT.

Multiply the weight in lbs. Avoirdupois by 35, and divide by 72; or multiply the weight in cwt. by 49, and divide by 36; the result will be the weight; in the former, in Seers; in the latter, in Maunds.

A Ton is equal to 27.222 Maunds, or 27 $\frac{1}{4}$ Maunds nearly.

BAZAR WEIGHT.

4 Powahs	... 1 Seer.
5 Seers	... 1 Pusseree.
8 Pusserees, or 40 Seers	... 1 Maund.

To reduce Bazar weight into Factory weight add 1-10th.

To reduce Bazar weight into Cwt., add 1 $\frac{1}{2}$ th, and deduct 1-3rd of that sum, the remainder will be Cwt.

To reduce Factory Maunds into Tons, divide by 30, and the quotient will be the answer.

* These are Bengal weights, and not used in the United Provinces of Agra and Oudh.

3 Jobs make 1 Ungli ... say = $\frac{3}{4}$ Inch.	8 Girahs make 1 Hath ... say = 18 Inches.
3 Unglis, 1 Girah ... say = $2\frac{1}{4}$ Inches.	2 Hathas, 1 Guz ... say = 1 Yard.

N.B.—The Guz varies in different localities from 24 to 36 Inches.

There appears to be no Indian measures of capacity for Dry and Liquid goods, which are sold by weight. Wherever, for the sake of convenience, measures are employed, they are intended to represent some specific weight of a *Seer*, *Chittack*, &c.

LINEAL MEASURE.

Notwithstanding that the cubit or human forearm is the basis or unit in Oriental and Western countries, there is no fixed standard established in India.

In Bengal the measure mostly used is the following:—

1 Hath (Cubic) = 18 Inches; 4 Haths = 1 Danda or = 2 Yards; 2,000 Dandas = 1 Coss.

The Coss or Bengal mile is equal to 1 mile, 1 furlong, 3 poles, $3\frac{1}{2}$ yards English.

The Indian Imperial Coss is equal to $2\frac{1}{2}$ miles nearly.

In the United Provinces of Agra and Oudh the average distance is about 2 miles, but it differs in almost every province in the country. For instance, in Agra and Muttra, the coss is about $1\frac{1}{2}$ miles; towards the Hills, the coss is a little more than a mile; in Bundelkhand, it is three times as long as in other parts and is called a *Pucca coss*; while in the Doab it is the *Gow coss*, or as far as the lowing of a cow is heard at dead of night.

BENGAL SQUARE OR LAND MEASURE.

	sq. yds.
1 chittack = 45 sq. ft. or $\frac{1}{2}$	
16 chittacks = 1 cottah = 720 " or 80	
20 cottahs = 1 beegah = 14,400 " or 1,600	
$3\frac{1}{10}$ beegahs = 1 acre.	

(United Provinces of Agra and Oudh.)

20 Uswansees = 1 Suswansee; 20 Suswansees = 1 Kuchwansee; 20 Kuchwansees = 1 Biswansee; 20 Biswansees = 1 Biswa; 20 Biswas = 1 Beegah.

There is, however, no fixed standard Beegah; almost every district has its own local measurement.

ASSAM LAND MEASURE.

12 feet = 1 loocer; 20 loocers = 1 cottah; 5 cottahs = 1 hillisah; 4 hillisals = 1 poorah.

BENGAL LIQUID MEASURE.

5 sicca Rs. weight make 1 chittack; 4 chittacks make 1 powah; 4 powahs make 1 seer; 40 seers make 1 maund.

DUE DATE TABLES.

To calculate the due date of any Bill. A Bill dated 23rd August 1890 @ 53 days after date 53+3 (days of grace)+3 (of the 23 in date)=59 days after the 20th August, look under August 20 in table, run down to 60 days in the marginal column 59=1 day short of 60, viz., October 18th.

To find days to run on a pre-dated Bill. A Bill dated 19th July @ 95 days date is presented for discount on the 23rd August. The due date to be found as per example above is October 25th: under 20th August find October 25 (October 19+6) and refer to margin which shews 66 days, deduct 3 of the date 23rd August, and you have 63 days to run from 23rd August.

KATMANDU [Nepal], 527 miles from Calcutta, made up as follows:—

From Calcutta (Howrah) to Mokameh Ghât, E. I. Ry., 284 miles; thence by T. S. Ry. to Segowlie, 152 miles; 233 miles from Allahabad to Digha Ghât, E. I. Ry.; thence by B. & N. W. and T. S. Rys. to Segowlie, 125 miles; from Lucknow

to Ajodhya Ghât, O. and R. Ry. *via* (Fyzabad); thence by B. & N.-W. and T. S. Rys. *via* Gorakhpore to Segowlie, 337 miles.

The Collector of Champaran is the official agent for conveyance from Segowlie to Bhimpedi, a distance of 66 miles. This portion of the journey is usually performed by palki, the bearers being paid at the rate of Rs. 2-12 per man. The road from Segowlie to Hardia Factory, 15 miles; thence Raksaul, 2 miles; open only between the months of Novr. and June (boundary between British India and Nepal); and thence Semrabasa, 13 miles (beginning of Terai forest), is good and suitable for driving. From Semrabasa to Bichakoh, 10 miles. The road leads through the sandy bed of a stream; the next 6 miles to the Churiaghati Pass lie up the bed of a mountain torrent, and the following 6 miles to Hetoura are through river beds and forests, and over broken ground. From Hetoura a good road follows the course of the Rapti River, by a gradual ascent to Bhimpedi, a village at the foot of the first range of mountains which enclose Nepal, 14 miles. From Bhimpedi to Katmandu, 25 miles. The journey is performed by dandy dāk, which is arranged for by the Resident in Nepal. From Bhimpedi the first two miles to Sisagarhi Fort are up the face of a very steep hill. The next mile, by a somewhat steep ascent, brings the traveller to the top of the Sisagarhi Pass (6,550 feet); thence by a steep descent of 2 miles to Tambakhani, the valley of the Panouni is reached. For the next 4 miles to Markhoo the roads run along the bed of the Panouni River, and then for the next 4 miles goes over very undulating ground to Chittong. From here the road ascends steeply to the top of the Chandragarhi Pass (7,525 feet), 2 miles, and descends to Thankote at the head of the Katmandu or Nepal Valley, by a broken precipitous path, 2 miles. From Thankote to Katmandu (4,750 feet) is 9 miles. There is a good driving road.

A relay of palki bearers should be sent forward to Bichakoh, and if this be done, the time occupied from Segowlie to Bhimpedi should be under 24 hours. If the stay in Nepal is to be short, the bearers who bring the traveller from Segowlie to Bhimpedi should be ordered to await his return at Bichakoh and Bhimpedi. Goods and baggage, such as are not carried along by bearers with the palki, should be sent on ahead by country cart from Segowlie to Bhimpedi during the cold weather, and to Hetoura or Bichakoh or Semrabasa during the hot and rainy seasons, whence they will be conveyed by hill porters to Katmandu.

Except at Sisagarhi Fort, where there is a small bungalow, without furniture or servants, there are no R. Hs. for Europeans either on the way up to or at Katmandu.

Between Segowlie and Nepal European travellers must take with them all supplies required, also bedding and servants.

For Natives there are R. Hs. and bunnies' shops at Semrabasa, Bichakoh, Hetoura, Bhimpedi, Sisagarhi Fort, Tambakhani, Markhoo, Chittong and Thankote. Europeans are not allowed to visit Katmandu without the permission of the Resident in Nepal.

THE MOST EXALTED ORDER OF THE STAR OF INDIA.

INSTITUTED 1861.

STAR, COLLAR AND BADGE.

INSIGNIA.

THE BADGE is an onyx cameo of Her Majesty's effigy, set in a gold and ornamented oval, enamelled in light blue, inscribed with the motto of the Order "HEAVEN'S LIGHT OUR GUIDE" in diamonds, surmounted by a Star of five points in Silver. The Riband of the Order is light blue, having a narrow white stripe towards either edge, and is worn from the right shoulder to the left side.

THE COLLAR is composed of the lotus of India, of palm branches, in saltire, tied together by a Riband, and of the united Red and White Rose in the centre of the Imperial Crown. All richly enamelled on gold, in their proper colours, and linked together by chains of gold to the said Crown.

THE STAR is composed of rays of gold issuing from a centre, having thereon a Star in diamonds resting upon a light blue enamelled circular riband, tied at the ends, inscribed with the motto of the Order, viz., "HEAVEN'S LIGHT OUR GUIDE," also in diamonds.

THE MANTLE—Light blue satin, lined with white silk, and fastened with a cordon of white silk, having blue and silver tassels attached thereto, and a representation of the Star of the Order on the left side.

THE MOST EXALTED ORDER OF THE STAR OF INDIA was instituted by Her late Majesty Queen Victoria, 23rd February, 1861; and enlarged, 28th March, 1866; and again in 1875 and 1876.

The Order consists of the Sovereign, the Grand Master and 246 Ordinary Members, together with such Extra Honorary Members as His Majesty, His heirs and successors, shall from time to time appoint. The 246 Ordinary Members are divided into three classes. The First Class are styled Knights Grand Commanders, and consist of thirty Members (eighteen Natives and twelve Europeans); the Second Class, of seventy-two Members, styled Knights Commanders; the Third Class, of one hundred and forty-four Members, styled Companions. His Majesty's Viceroy and Governor-General of India is Grand Master.

The Statutes enable the Sovereign to confer the dignity of Knight Grand Commander of the Order upon such Princes and Chiefs of India as shall have entitled themselves to His Majesty's favour, and upon such of His Majesty's British subjects as have, by important and loyal services rendered by them to the Indian Empire, merited the Royal favour; and the Second and Third Classes upon persons who, by their conduct or services in the Indian Empire, have merited the Royal favour.—(*Foster's Peerage.*)

THE MOST EMINENT ORDER OF THE INDIAN EMPIRE

INSTITUTED 1877.

THE STAR is composed of five rays of silver, having a smaller ray of gold between each of them, the whole alternately plain and scaled, issuing from a gold centre having thereon Her *late* Majesty's effigy within a purple circle, inscribed with the motto of the Order "Imperatricis Auriclis," in letters of gold, the circle surmounted by an Imperial Crown, also gold.

The COLLAR is composed of Elephants, Lotus Flowers, Peacocks in their pride, and Indian Roses, having in the centre of the said collar an Imperial Crown, the whole lined together by chains, all of gold.

The BADGE is an enamelled gules barbed vert, having in the centre Her *late* Majesty's effigy within a purple circle, inscribed with the motto of the Order in letters of gold, surmounted by an Imperial Crown, also gold. The Riband is Imperial purple, four inches in width, and is worn from the right shoulder to the left side.

The MANTLE is of purple satin, lined with white silk, fastened with a cordon of white silk, having two purple silk and gold tassels attached thereto, on the left side of which mantle is embroidered a representation of the Star of Order.

The Knights Commanders wear around their necks a Riband of the same colour and pattern as that of the First Class, but two inches in width, and pendant therefrom the Badge, which is of smaller size than that appointed for the Knights Grand Commanders. On their left breast they wear a Star like that of the First Class, except that it is of silver, and is composed of rays alternately bright and chipped, issuing from a gold centre.

The Companions wear a Badge of the same form and appearance as that appointed for the Knights Commanders, but of smaller size, pendant to a Riband of the same colour and pattern, one and-a-half inches in width, attached by a buckle from their left breast.

The ORDER OF THE INDIAN EMPIRE was instituted by Her *late* Majesty Queen Victoria, Empress of India, 1877, to reward services rendered to Her Majesty and Her Indian Empire and to commemorate the proclamation of Her Style and Title of Empress of India, and consists of the Sovereign, Grand Master and Companion. It was enlarged in 1886 and 1887.

The ORDER consists of the Sovereign, the Grand Master, and three several classes of Knights Grand Commanders (25), Knights Commanders (50) and Companions, together with such Honorary and Extra Members as His Majesty, His heirs and successors, shall from time to time appoint. His Majesty's Viceroy and Governor-General of India for the time being is Grand Master.

The Statutes enable the Sovereign to confer the dignity of a Knight Grand Commander upon such persons as have, by their services, official or other, to His Majesty's Empire in India, merited the Royal favour, and upon such distinguished Representatives of Eastern Potentates as His Majesty, His heirs and successors, may think fit.

The Knights Grand Commanders, Knights Commanders and Companions of this Order have place and precedence next to, and immediately after, the Knights Grand Cross, Knights Commanders and Companions, respectively, of the Order of St. Michael and St. George.

THE KAISAR-I-HIND MEDAL.

FRONT.

REVERSE WITH RIBBON.

The medal consists of an oval shaped Badge or Decoration—in gold for the First Class and in silver for the Second Class—with the Royal Cypher in the centre on one side and on the reverse the words “Kaisar-i-Hind; For Public Service in India,” and is suspended on the left breast by a dark blue ribbon.

THE KAISAR-I-HIND MEDAL FOR PUBLIC SERVICE IN INDIA was instituted by Her late Majesty Queen Victoria, Empress of India, on the 10th April 1900, as a reward for important and useful services rendered in Her late Majesty's Indian Empire in the advancement of public interest.

See *Gazette of India*, 11th May 1900.

THE IMPERIAL ORDER OF THE CROWN OF INDIA.

THE decoration of BADGE consists of Her late Majesty's Royal and Imperial Cypher “V.R. and I.” in diamonds, pearls and turquoises, encircled by a border set with pearls, surmounted by the Imperial Crown, jewelled and enamelled in proper colour, attached to a light blue watered riband edged white, of one inch and-a-half in width, tied in a bow, and is worn on the left shoulder.

THE IMPERIAL ORDER OF THE CROWN OF INDIA was instituted by Her late Majesty Queen Victoria, Empress of India, 1st January 1878, to commemorate the assumption of Her Majesty's Imperial title of Empress of India, and is to consist of the Sovereign and of such Princesses of Her Majesty's Royal and Imperial Household, the Wives and other Female Relatives of Princes of the Indian Empire and other Indian Ladies, and of the Wives and other Female Relatives of any of the persons who have held or may hold the offices of Viceroy and Governor-General of India, Governors of Madras or Bombay, or of Principal Secretary of State for India, as the Sovereign may think fit.

The first day of January in every year is the Anniversary of the institution of the Order.

Sovereign of the Order, HER MAJESTY QUEEN ALEXANDRA, EMPRESS OF INDIA.

DISTINGUISHED SERVICE ORDER.

It is ordered that the Badge of the Order, which shall consist of a gold cross, enamelled white, edged gold, having on one side thereof in the centre, within a wreath of laurel enamelled green, the Imperial Crown in gold, upon a red enamelled ground, and on the reverse, within a similar wreath and on a similar red ground, Our Imperial and Royal Cypher, V. R. I., shall be suspended from the left breast by a red riband edged blue, of one inch in width.—*London Gazette*, 9th November 1886.
